

Varmvalsede bulbflatstål
Dimensjoner og toleranser for form,
dimensjoner og masse

Hot rolled bulb flats

Dimensions and tolerances on shape, dimensions and mass

Nasjonalt forord

Den engelskspråklige versjonen av europeisk standard EN 10067:1997 er fastsatt som Norsk Standard NS-EN 10067:1997.

Denne standarden erstatter NS 6034:1982

National foreword

The English language version of European Standard EN 10067:1997 has been adopted as Norwegian Standard NS-EN 10067:1997.

This standard supersedes NS 6034:1982

EUROPEAN STANDARD

Descriptors: iron and steel products, hot rolled products, metal bars, flat bars, designation, dimensions, dimensional tolerances, form tolerances

English version

Hot rolled bulb flats - Dimensions and tolerances on shape, dimensions and mass

Plats à boudin laminés à chaud - Dimensions et tolérances sur la forme, les dimensions et la masse

Warmgewalzter Wulstflachstahl - Maße, Grenzabmaße und Formtoleranzen

This European Standard was approved by CEN on 1996-08-04. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This draft European Standard has been prepared by Technical Committee ECISS/TC 11 "Structural steel sections", the secretariat of which is held by BSI.

The discussions within ECISS/TC11 were based on Euronorm 67 (1978).

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by April 1997, and conflicting national standards shall be withdrawn at the latest by April 1997.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

1 Scope

This European Standard specifies requirements for the nominal dimensions and tolerances on shape, dimensions and mass of hot rolled bulb flats. These requirements do not apply to bulb flats rolled from stainless steel.

2 Normative references

This European Standard incorporates by dated or undated reference provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to or revisions of any of these publications apply to this European Standard only when incorporated in it by amendment or revision. For undated references the latest edition of the publication referred to applies.

EN 10079 Definition of steel products

3 Definitions

For the purposes of this European Standard the definitions in EN 10079 apply.

4 Designation

The designation of the hot rolled bulb flats shall comprise:

- 1) the term 'bulb flat'
- 2) the number of this European Standard
- 3) the nominal width b (in mm)
- 4) the nominal thickness t (in mm)
