

Sveiste stålrør for trykkpåkjent utstyr
Tekniske leveringsbetingelser
Del 2: Elektrisk sveiste ulegerte og legerte
stålrør med spesifiserte egenskaper ved
høye temperaturer

Welded steel tubes for pressure purposes
Technical delivery conditions
Part 2: Electric welded non-alloy and alloy steel tubes with specified
elevated temperature properties

Nasjonalt forord

Den engelskspråklige versjonen av europeisk standard EN 10217-2:2002 er fastsatt som Norsk Standard NS-EN 10217-2:2002.

National foreword

The English language version of European Standard EN 10217-2:2002 has been adopted as Norwegian Standard NS-EN 10217-2:2002.

ICS 23.040.10; 77.140.75

English version

Welded steel tubes for pressure purposes - Technical delivery conditions - Part 2: Electric welded non-alloy and alloy steel tubes with specified elevated temperature properties

Tubes soudés en acier pour service sous pression -
Conditions techniques de livraison - Partie 2: Tubes soudés
électriquement en acier non allié et allié avec
caractéristiques spécifiées à température élevée

Geschweißte Stahlrohre für Druckbeanspruchungen -
Technische Lieferbedingungen - Teil 2: Elektrisch
geschweißte Rohre aus unlegierten und legierten Stählen
mit festgelegten Eigenschaften bei erhöhten Temperaturen

This European Standard was approved by CEN on 25 April 2002.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document (EN 10217-2:2002) has been prepared by Technical Committee ECISS/TC 29, "Steel tubes and fittings for steel tubes", the secretariat of which is held by UNI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by November 2002, and conflicting national standards shall be withdrawn at the latest by November 2002.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

For relationship with EU Directive(s), see informative annex ZA, which is an integral part of this document.

Other parts of EN 10217 are:

- Part 1: Non-alloy steel tubes with specified room temperature properties
- Part 3: Alloy fine grain steel tubes.
- Part 4: Electric welded non-alloy steel tubes with specified low temperature properties
- Part 5: Submerged arc welded non-alloy and alloy steel tubes with specified elevated temperature properties.
- Part 6: Submerged arc welded non-alloy steel tubes with specified low temperature properties.
- Part 7: Stainless steel tubes.

Another European Standard series covering tubes for pressure purposes is:

- EN 10216: Seamless steel tubes for pressure purposes.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.
