

**Sveiste rustfrie stålrør for transport av  
vannaktige væsker, inkludert drikkevann  
Tekniske leveringsbetingelser**

Welded stainless steel tubes for the conveyance of aqueous liquids  
including water for human consumption  
Technical delivery conditions

---

**Nasjonalt forord**

Den engelskspråklige versjonen av europeisk standard EN 10312:2003 er fastsatt som Norsk Standard NS-EN 10312:2003.

**National foreword**

The English language version of European Standard EN 10312:2003 has been adopted as Norwegian Standard NS-EN 10312:2003.

English version

## Welded stainless steel tubes for the conveyance of aqueous liquids including water for human consumption - Technical delivery conditions

Tubes soudés en acier inoxydable pour le transport des liquides aqueux, y compris l'eau destinée à la consommation humaine - Conditions techniques de livraison

Geschweißte Rohre aus nichtrostenden Stählen für den Transport wässriger Flüssigkeiten einschließlich Trinkwasser - Technische Lieferbedingungen

This European Standard was approved by CEN on 16 October 2002.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
